Testimonials

"The Board Games evening was amazing. As a volunteer, I felt proud that I could be part of the organization team for the event. Moreover, I felt included, and free to come up with ideas of my own"

Ioana Păcurar, MozaiQ volunteer

"For me, the guided tour through Bucharest's queer history represented reclaiming a lost history, while at the same time having fun and laughing.

Stories about the nights in Sherlock, the countless nights in which the youth encountered the same issues we do today, moments in which they felt accepted at last, included among others in their community, understood, laughs in the ever beautiful Cișmigu in which a strategic Moral Police outpost was present; all these were living history before our eyes."

Thea Păun, MozaiQ volunteer

"The Artist-Talkul, Therapy Workshop and Sound Therapy Workshops were my favorite activities from this Pride season. Art, peace, and fun, these were our weapons this year and good on us for that," 🇷🇺💖

Roxana Marin, Advocacy Coordinator MozaiQ

"Through the Campus Pride project, MozaiQ assumed the role of community and supporters catalyst. Retro Campus Pride Party was not only a celebration, but a network and socialization opportunity. I believe this kind of event can lead to a great deal of idea exchanging and new projects for the good of our society.

Alin Luchian, participant Retro Campus Pride Party

"Through the events organized by MozaiQ, I can say my circle of friends is much bigger and I keep in touch with a lot of people I met during them"

Ionut Stanciu, participant
